Customer Environn	Customer Environment Risk Evaluation		
Country Risk	In dependence on Standard & Poors Rating definitions		
Industry Risk	In dependence on Standard & Poors Rating definitions		
Organization Type	The logic in the ranking is that it is least likely that states go bankrupt. That's why it has the lowest credit default risk. Privat companies whos owners are liable with there private capital will act much more risk averse than managers in limited companies. If the limited compnay is part of a group, then there is a higher market power and chance to survive. Subsidiaries will be able to receive financial support from the parent company. Non-profit organizations are not pressured by marktet forces and their financing is different. This is the reason why the credit derfault risk is lower.		
Years in Business	The number of year in business indicates the quality of the business as well as the the quality if the management to servive at the market in the long run.		
Geographic Coverage	As higher the revenue is made abroad and this is diversified to various countries, the dependency to geographical markets and their turbulences is reduced. This is called natural hedging as well.		
Business Diversification	Similar to the business diversification it is risk reducing from a Portfolio theory perspective if the player is not putting all its efforts on one market. This is valid for geographical markets and number of customers as well. Concentration builds dependencies, which can promise high rates of return but also bring high risks. If the project is unsuccessful the company can struggle to survive.

Emerald Rating services shall support credit decision making, but the credit decision as such must be taken by the authorized body of the lender including the review of the correct data entry. Warranty claims shall be excluded if the defect is due to circumstances, which the customer is responsible for. Any impairment of the function, which is due to hardware defects, environmental conditions, operating error or similar reasons, shall not be deemed a defect. If there is cause for defects liability, the customer may request either remedy or replacement at Emerald Rating's option. Should Emerald Rating, due to its own fault, be unable to provide appropriate remedy or replacement, the customer may either withdraw from the agreement or demand that the price for the service concerned be reduced. The warranty period shall be one year with effect from the day of delivery of the service.

10. Disclaimer

Emerald Rating shall be liable for any damage caused deliberately or by gross negligence within the scope of the damage. Any further liability shall be excluded to the extent permitted by law. Emerald Rating shall not be liable for losses as a result of instructions by the customer. The liability of Emerald Rating shall be limited to losses incurred by the customer. Any liability for further losses, namely third-party indemnification, shall be waived completely.

11. Usage Limitations

The customer shall ensure compliance with the agreed scope of services. The customer is prohibited from replicating software, with the exception of a backup copy intended exclusively for his own personal use. The customer shall use the services provided to him solely in accordance with the effective laws. In particular he shall guarantee compliance with the provisions regarding data protection and copyright and he shall indemnify Emerald Rating from any claims enforced by third parties against Emerald Rating as a result of a violation of the aforementioned provisions.

12. **Technical Requirements**

Safeguarding the operation of the program's work environment and adapting it to technological advancements falls within the customer's scope of responsibilities. On request Emerald Rating shall inform the customer of the current technical requirements.

13. Breach of Contract

Violation of the usage limitations or any other breach of contract shall result in the immediate termination of the right of utilization. In this case, no refund shall be made for any service fees already paid. This shall not affect any further claims for damages.

14. Data and Privacy

Emerald Rating is not gathering, trading or processing personal data. The customer agrees that the financial and customer environment information that he enters in Emerald Rating service, deals for converting it into information for supporting a credit decision only. PayPal personal information is disconnected from Emerald Rating services.

15. Contract Documents and Alterations

In case of conflict between the provisions of an individual contract and the provisions of these Terms and Conditions, the provisions of the individual contract shall prevail within the scope in which the disagreement exists. Should an individual provision be or become invalid, this shall not affect the validity of the remaining provisions. The customer's General Terms and Conditions shall not be applicable insofar as they contradict the Emerald Rating General Terms and Conditions. Unless explicitly agreed otherwise, any alterations and amendments of these terms and of any individual contracts must be in writing. This shall also apply to any agreement with regard to a waiver of the written form requirement.

16. Applicable Law

This agreement is governed by Swiss law.

17. Place of Jurisdiction

The courts having jurisdiction in Schübelbach (the registered office of Emerald Rating) are appointed for court settlements, subject to any mandatory legal provisions to the contrary. Emerald Rating has the right to sue the customer at another court having jurisdiction.
